PLANNING & ZONING COMMISSION

Agenda Item No. 6A

Public Hearing: Zoning Case 2014-48

Applicant: Lyons Equities, Inc., Trustee Texas Corp.

DESCRIPTION:

Request to rezone 6.4± acres located on the north side of Park Boulevard, 334± feet east of Los Rios Boulevard **from** Planned Development-13-Retail **to** Single-Family Residence Attached. Zoned Planned Development-13-Retail.

REMARKS:

The purpose of this request is to rezone 6.4± acres located on the north side of Park Boulevard, 334± east of Los Rios Boulevard from Planned Development-13-Retail (PD-13-R) to Single-Family Residence Attached (SF-A). A planned development district provides the ability to amend use, height, setback, and other development standards at the time of zoning to promote innovative design and better development controls appropriate to both off- and onsite conditions. The R district is primarily intended to provide areas for neighborhood, local, and regional shopping facilities for the retail sales of goods and services including convenience stores, shopping centers, and regional malls but not including wholesaling and warehousing. The SF-A district is intended to provide for a variety of residential housing types and densities in medium density range (five-ten units/acres) on individually-platted lots or multiple units on a single lot.

The R zoning district allows SF-A development with approval of a Specific Use Permit (SUP). However, PD-13-R limits the maximum height of development to one-story or 32 feet, whichever is less. Rather than applying for an SUP, which would have a height limitation of one-story, the applicant is requesting to rezone which would allow for a two-story residential product.

A preliminary site plan, Venetian Villas North accompanies this request as Agenda Item 6B.

Surrounding Land Use and Zoning

The area of request is currently undeveloped. To the south, across Park Boulevard, is undeveloped land zoned Planned Development-6-Retail (associated with Zoning 2014-49). To the east are existing residences zoned Single-Family Residence-7 (SF-7). To the north are existing residences zoned Two-Family Residence (Duplex). To the west are existing retail uses zoned Planned Development-13-Retail.

Conformance to the Comprehensive Plan

Future Land Use Plan - The Future Land Use Plan designates this property as Residential with Neighborhood Commercial at the intersection of Los Rios Boulevard and Park Boulevard. The request is in conformance to the Future Land Use Plan.

Interim Amendments to the Comprehensive Plan - In April 2012, the City Council adopted interim amendments to the Land Use Element of the Comprehensive Plan which included recommendations pertaining to the use of the city's undeveloped land. Two of these recommendations are applicable to this request.

1. All residential rezoning requests should be evaluated to determine the impact on infrastructure, public safety response, school capacity, and access to and availability of amenities and services.

The proposed site is served by the 107 acre Cottonwood Creek Greenbelt Park which is approximately 1,100 feet to the east. Additionally, PISD representatives have stated that there is sufficient capacity at all four schools serving the property. The Fire Department has determined that response times are sufficient for single-family development at this location. Therefore, this request is consistent with this interim amendment to the Comprehensive Plan.

2. Isolated residential development should not be permitted; residential rezoning requests need to establish a complete neighborhood, or expand an existing neighborhood or an urban mixed-use center. Mid-rise multifamily development (five to twelve stories) and special needs housing (i.e. senior housing) could be an exception if the surrounding land uses are compatible.

The applicant is proposing 44 residential lots on the subject property. Although the proposed townhomes are a denser product than the existing residences in the area, single-family residential uses at this location are compatible with the adjacent single-family uses. The proposed units will be a rear entry product providing connectivity, via alley access, to the existing residential subdivision to the north and east. By expanding an existing neighborhood, this request is in conformance with this policy recommendation.

Infill Housing Policy Statement - The Infill Housing Policy recommends that infill housing be adjacent or be in close proximity to existing residential development to take advantage of existing amenities. The proposed development is an extension of an existing single-family neighborhood to the north and east. The policy statement also

recommends adding a variety of housing options to existing residential neighborhoods, to which this conforms.

Rezoning Property to Meet Demand - The subject property is physically appropriate for residential uses. The area is not affected by adverse environmental conditions such as noise, light, fumes, or related nuisances.

Additionally, the request is also consistent with the Housing Element of the Comprehensive Plan which encourages providing a wide variety of housing types to serve a diverse population. The Housing Element also states that the city should place medium density housing on the periphery of neighborhoods that have low density housing in the interior.

Adequacy of Public Facilities - Water and sanitary sewer services are available to serve the subject property via extensions from Park Boulevard. However, the applicant will need to verify that the sanitary sewer capacity is sufficient to accommodate the proposed change in use from commercial to single-family residential.

Traffic Impact Analysis (TIA) - A TIA is not required for this rezoning request. However in considering the traffic impact of the proposed residential development, using the average Institute of Traffic Engineers (ITE) trip generation rates, staff compared the proposed residential development with the potential build-out of the subject property as retail. Using the adjacent retail development and comparing it to the subject property we estimated that 39,000 square feet of retail could develop on the property. The table below shows the estimated traffic generation during peak hours (7:00-9:00 a.m. and 4:00-6:00 p.m.):

| | AM | PM |
|--------|----|-----|
| SF-A | 33 | 44 |
| Retail | 39 | 145 |

From these calculations, it is evident that retail development would generate greater traffic than the requested residential subdivision.

School Capacity - This is provided for informational purposes only. The subject property is within the Plano Independent School District and is served by the following schools:

| | |
|---------------------------|-------------------|
| Elementary School | Dooley |
| Middle School | Armstrong |
| High School | McMillen |
| Senior High School | Plano East |

At this time, and based upon current boundaries, PISD has determined that there is sufficient capacity at all four schools.

Retail Zoning

In 2003, City Council adopted the *Retail Study of Underperforming and Vacant Retail Areas* initiated by the cities of Carrollton, Richardson, and Plano. This study examined the retail market conditions in the three cities and offered alternatives to address underperforming and vacant retail properties. The study identified Plano as having an overabundance of R zoning resulting in commercial decline. Rezoning to residential is a recommended strategy to reduce retail zoned land.

As a result of this study, City Council amended the R zoning district to allow Single-Family Residence-Attached (SF-A), Two-Family Residence (2F) and Patio Home (PH) development with an SUP. Due to the existing height restrictions within PD-13-R, the applicant is requesting to rezone the property to SF-A to allow for two-story residences.

The Los Rios Boulevard and Park Boulevard neighborhood commercial area has a retail vacancy rate ranging from 17%-23%, as determined in the *Housing Value Retention Analysis*, which is considered a strong vacancy rate. The percentage of retail vacancy has been found to have a statistically significant impact on home prices. The proposed SF-A subdivision would help reduce the amount of undeveloped retail zoned property within the city and will also support existing retail centers within the area.

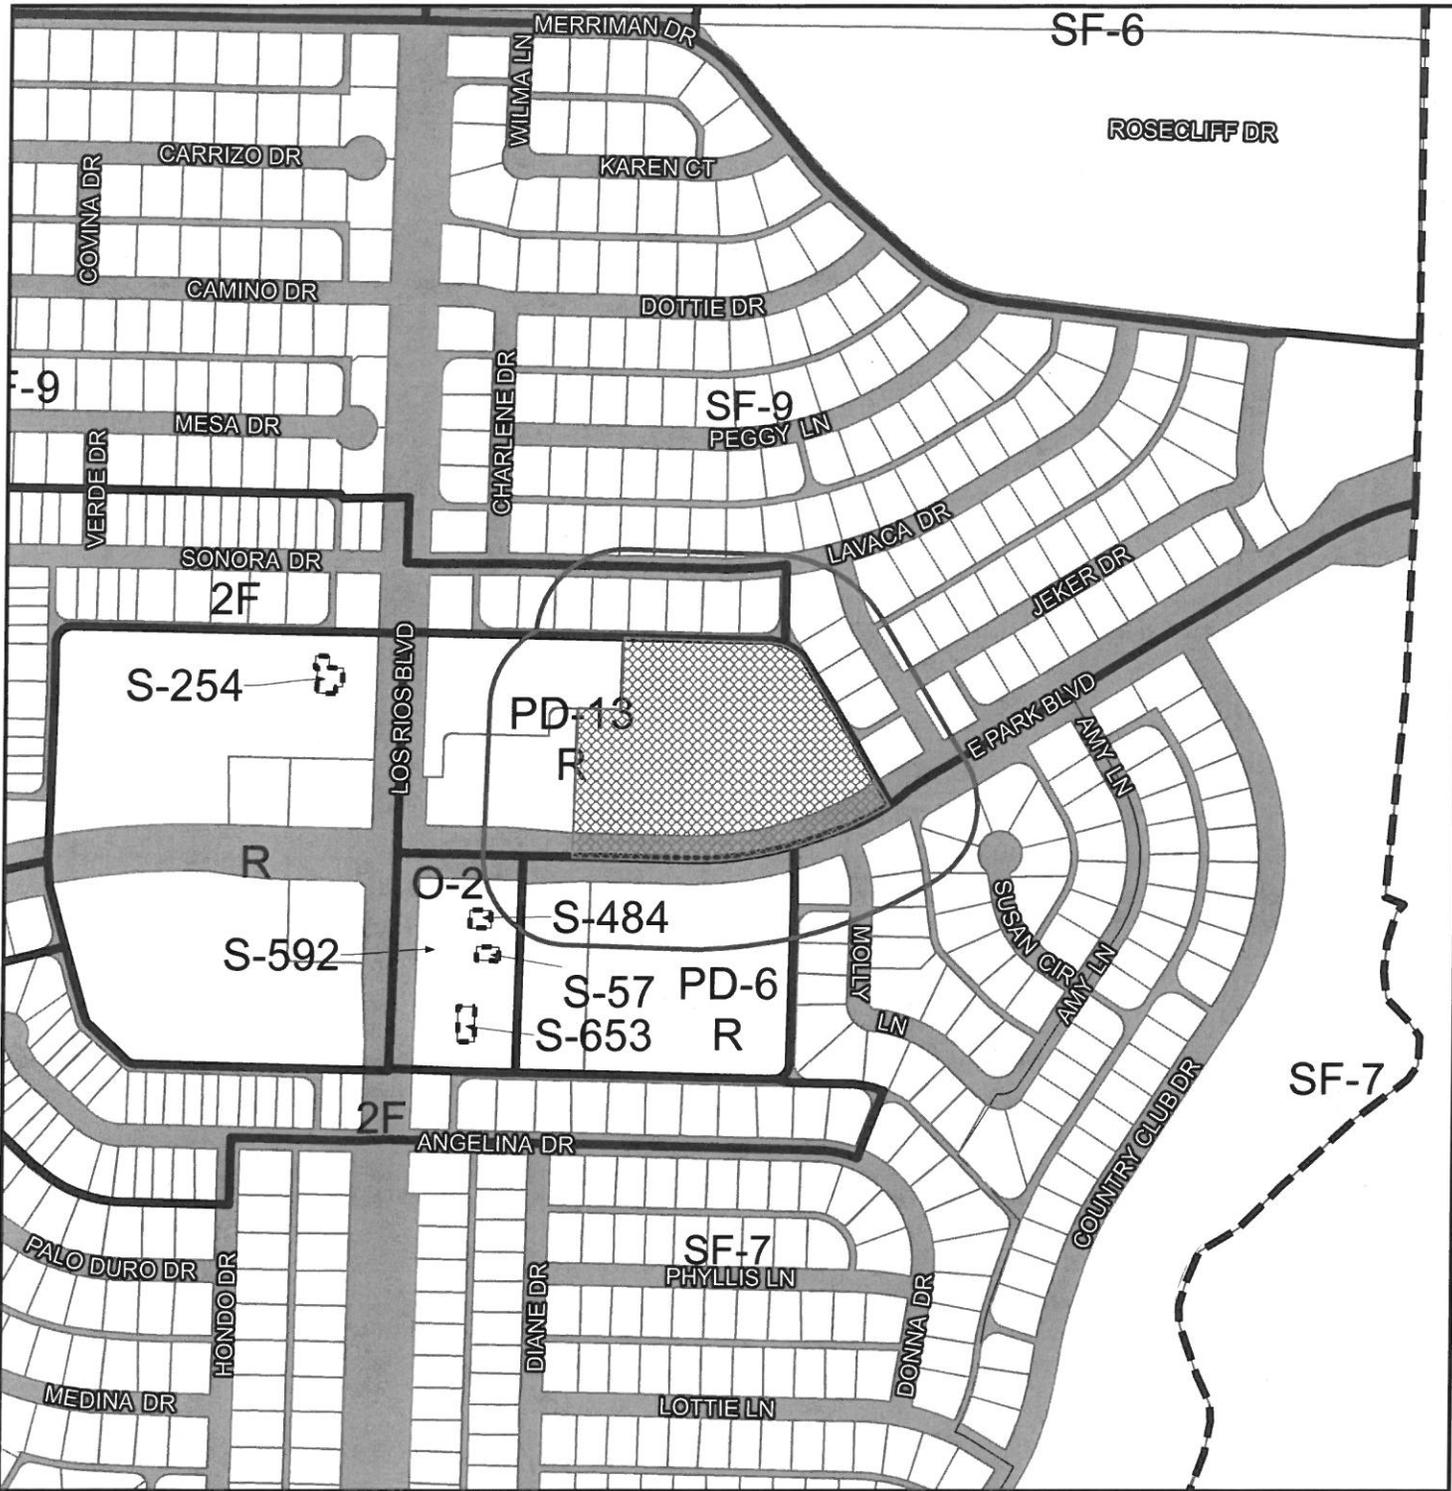

Summary

The applicant is requesting to rezone the subject property from Planned Development-13-Retail to Single-Family Residence Attached. The requested rezoning for SF-A is compatible with the existing adjacent single-family residential neighborhoods and complies with the Future Land Use Plan and interim amendments to the Land Use Element of the Comprehensive Plan. The proposed townhomes would add variety of housing to the area to serve a diverse population and a residential development at this location would help reduce the amount of undeveloped retail zoned property within the city. For these reasons, staff is in support of this zoning request.
