FUND(s): TECHNOLOGY FUND				
<p>COMMENTS: Funds are available in the 2012-13 Technology Fund budget for the replacement purchase of Cisco Switch hardware and maintenance at various City Facilities, including Fire Stations. The balance of project funds will be used for other server replacement purchases.</p> <p>STRATEGIC PLAN GOAL: Periodic replacement of switch hardware relates to the City's Goal of Financially Strong City with Service Excellence.</p>				
SUMMARY OF ITEM				
<p>Staff recommends approval of the purchase of replacement Cisco switch hardware and maintenance in the amount of \$62,825 from INX, LLC a Presidio Company utilizing their Department of Information Resources contract. The currently installed Cisco switch hardware is no longer supported by Cisco. These switches are located at 9 Fire Stations. If we were not able to replace the existing out of warranty switches, it may cause a disruption of service to a Fire Station for a significant time period. The City is authorized to purchase from the State Contract list pursuant to Section 271 Subchapter D of the Local Government Code and by doing so satisfies any State Law requiring local governments to seek competitive bids for items. (DIR-SDD-1386)</p>

Memo

Date: 1/4/2013

To: Diane Palmer-Boeck, Chief Purchasing Officer

From: David Stephens, Director Technology Services

RE: Switch Replacement Purchases

Technology Services proposes purchasing Cisco switch hardware and maintenance to replace hardware that is no longer supported by Cisco. These switches are located at 9 Fire Stations.

This purchase would be through an existing contract with the State of Texas Department of Information Resources. The contract number is DIR-SDD-1386. The supplier for these switches and maintenance is INX, LLC a Presidio company. The purchase amount will be \$62,824.54 and will include maintenance for three years. The INX proposal was the most cost effective of three proposals we received.

If we are not able to replace the existing out of warranty switches, Technology Services would not be able to service or replace those switches in a timely manner. This may cause a disruption of service to a Fire Station for a significant time period.
